County & Field Agreement Updates

- We are still waiting on the final billing from the county. They are wanting verification of our lease being approved through 2027
- HB Fuller legal to draft our lease extension showing that we are approved through 2027

Field & Cage Usage Agreements

- Per our last meeting, Adam will finalize our 3-tier user agreement for the cages and send out to the board via email for approval
- Contact Adam for cage use and availability
- Salmon Creek softball reached out about using our cages. We have offered them our "affiliate" rate since we do not offer softball and our would-be softball players play at SCLL. This would happen only through the end of January when our season picks up.

Future Projects

- A plumbing issue in the bathroom is in the process of being resolved. It is not affecting functionality of the bathrooms since they are working through the back wall.
- Fieldhouse gutter repairs are in process. We are looking to replace them with PVC and are awaiting a quote for that.
- We are currently thinking of ways to address the lighting situation in the parking lot, focusing on the front parking spots that are used in the off season and evenings. Solar is our only option, and we are considering having poles put in to mount solar lights on.
- Cage improvements: a darker color paint was requested for safety. Adding boards to protect the walls from wear and tear. Looking to add something for players to hang their bags on.

Registration Update

- Flyers will go out at the end of the week, looking into getting flyers to private schools in the area as well. Social media promotion posts to happen this week.
- Coaches need to send an email to Ron letting him know that they want to coach
- Look into seeing if registration can include an option to request sponsorship information
